### Flu vs. COVID-19

Wondering how to tell if you have the flu vs COVID? Unfortunately, the symptoms are the same, so the only way to know is to get tested. COVID home test kits are readily available, but you need to go to a medical professional to be tested for the flu. There are some differences in how long a person is contagious. According to the CDC, those with the flu may be contagious for up to one day prior to showing symptoms; however, those positive for COVID can be contagious for 2-3 days prior to showing symptoms, and the most contagious the day prior to symptoms. In addition, the flu can be contagious for the first 3-4 days, those with a weakened immune system can be contagious longer. With COVID, infected individuals can be contagious for up to eight days from the start of symptoms. This is why it is important to get tested when you are experiencing cold or flu like symptoms!

### Continuum of Care 101 Sessions

Back by popular demand, we are holding our Continuum of Care 101 Sessions. Each session will cover a level of care offered at Blue Skies of Texas – Independent Living, Assisted Living, Skilled Nursing, Rehab, and Hospice. These sessions will focus on what services and care are provided at each level of care. The Continuum of Care is one reason that residents move to BST. This educational series is for the newbies and the not so new anymore residents; we can all benefit from a refresher course! Below is the schedule. All sessions will be held in the Roadrunner Lounge. For our East Campus residents, we held these sessions during the summer at the Resident Council meetings, if you missed those meetings, please join us at the West Campus sessions.

Independent Living 101 - Friday, **January 19** at 10am

Assisted Living and Memory Care 101 - Wednesday, **January 24** at 11am

Skilled Nursing 101 - Friday, **February 2** at 10am

### New Addition to the Wellness Team

Jackie Farnsworth has joined our Wellness Team as the Health & Wellness Liaison at the West Campus. Many of you know Jackie as one of our fitness instructors, but what you may not know is that she has vast experience in working in the home health industry prior to becoming a fitness instructor, in addition she holds a master's degree in Gerontology. We are excited to have her join our Wellness Team.

### Medication List

Whether you are going to the ER or a doctor's appointment, the first thing they request is a list of medications you take, this is particularly important when going to the ER. So, please maintain a list of your medications readily accessible in your home and also in your wallet or purse should an emergency occur outside of your home.
